## *Physician Leaders*

### **BE POISED TO LEAD**

We look forward with great anticipation to launching the WMS Physician Leadership Academy. This in-depth course is designed to enhance the leadership skills of physicians, so they can play a larger role in their practices and hospitals, and attain the knowledge and opportunities necessary to influence Wyoming healthcare policy.

---

### **IT'S THE RIGHT TIME**

In the current healthcare landscape, physicians are facing immense challenges. It's difficult to increase the quality of care in an atmosphere of ever rising delivery costs. Professional collaboration and advocacy are essential to supporting patients, while heeding the needs of physicians. By helping physicians embrace executive and management positions, affording detailed insight and different perspectives into Wyoming's healthcare issues, we're providing them with the means to spearhead the development of effective solutions.

---

### **TRAINING FOR CHANGE**

The Wyoming Leaders in Medicine initiative offers leadership development training and fosters dialogue with colleagues and experts on the challenges and opportunities of practicing medicine in an evolving environment.
