Q1 What is your name and Candidate Committee name?

First and Last Name: Denise Shirley
Candidate Committee: Republican
House/Senate District: House Seat 24
Preferred Email: stayinbusy@yahoo.com

Q2 What is the role of state government in healthcare issues in Wyoming? Describe your top three priorities for improving the healthcare delivery system in the state?

1. **Choice**
 2. **Lowering Prescription Cost**
 3. **Less Government involvement**

Q3 Wyoming's tobacco tax rate of \$.60 per pack ranks 8th lowest in the nation. The national average is \$1.72 per pack. Given the state's declining revenue and Wyoming's low tobacco tax, is increasing the tobacco tax a subject you feel worthy of consideration in the coming biennium? If you do support the tax increase is it primarily based in an interest to generate state revenue or as a method to de-incentivize tobacco use, or both?

Yes I support increasing the tobacco tax.

Please Explain:

I am not one to believe in raising taxes. I believe part of the draw of living in here in Wyoming is the low taxes. I would support a tax increase for tobacco for the campaign to discourage use and make their use more expensive.

Q4 Physicians in Wyoming are required to attend continuing medical education (CME) to maintain their licensure in the State. Many physicians are now also taking part in maintenance of certification (MOC) programs to maintain board certification. MOC programs include more stringent continuing education requirements often at a higher cost, and generally involve high-stakes testing in order to maintain certifications. Wyoming physicians support continuing education requirements, but oppose mandates to maintain board certification. Do you support tying a physician's employment, reimbursement, or licensure to their participation in MOC activities?

Yes, physician board certification should be allowed to be tied to state licensure, employment, hospital privileging, and/or reimbursement.

Please explain.:

Many in the medical field must continue education in an expanding work environment to be competitive and be patience advocates for future healthcare needs.

Q5 With 32 percent of Wyoming’s population being covered by public payers (Medicare, Medicaid, CHIP, Federal programs, etc), and current projected budget shortfalls, how would you prioritize reimbursement to physicians? Please explain.

We should be fiscal with our budgets, this would include some type of oversight committee to ensure that services are not being abused by physicians. Authorizations and reimbursement can be applied in a timely manner, to ensure procedures and payments.

Q6 WMS supports physician-led healthcare teams with each licensed provider practicing at the top of their scope. Do you support licensed healthcare professionals expanding their scope of practice or increasing the specific tasks they can perform, such as psychologists prescribing or optometrists performing eye surgery, through rule making or legislation without proof of adequate expanded education, training and curriculum changes?

No, healthcare providers should only expand scope of practice when done through increased education, curriculum changes in training programs and stringent testing to determine proficiency.

,
Please explain:
No. Scope of practice care insures proper patient care. Out reaching beyond that scope can lead to malpractice and negligence.

Q7 The demand for mental health services in Wyoming is on the rise with involuntary hospitalizations increasing at alarming rates. Suicide also remains a concern with Wyoming ranking as the fourth-highest state in the nation. Between the increase in demand for state mental health services and recent overages in the state budget for Title 25 costs, what do you believe can be done to positively impact these trends?

Detection and Prevention is the best way to impact cost, because the longer services are detained services increase in cost and treatment.

Q8 Would you support legislation to resolve the professional liability crisis in Wyoming? Specifically, would you support a cap on non-economic damages? Would you support other remedies such as adoption of the English rule, no-fault medical liability insurance or other such reforms?

I support capping non-economic damages

Agree

I do not support capping non-economic damages

Disagree

I support investigating all avenues to bringing meaningful liability reform to the state including capping non-economic damages.

Agree

I support investigating alternative means to achieving liability reform but do not support capping non-economic damages.

Disagree

I do not support any efforts to bring liability reform to the state as I do not see there is a current need or crisis.

Agree

Please explain:

I do not believe there is a liability crisis. I would support a cap on non-economic damages to insure frivolous lawsuits for individual profit. I support the adoption of the English language for proper culture assimilation. I would support a reform of medical liability insurance to insure no profit by individuals.

Q9 WMS advocates for physicians to practice evidence-based medicine grounded in the latest research and safety standards. WMS opposes any legislation that attempts to unnecessarily insert government within the relationship between physicians and their patients as it hinders the ability for doctors to administer the most recent, evidence based, practices in medicine. Do you oppose legislation that unnecessarily inserts government between a physician and a patient?

Yes, I oppose state legislation that inserts government between a physician and a patient.

,
Please explain:

Yes. I do not think that government should be involved between a patient and their physician. Patience together with the advice of their Physician plan what is best for care.

Q10 Do you support expanding Medicaid to provide state-based insurance to uninsured Wyomingites for 10% of the cost to the State of Wyoming?

No,

Please explain:

Fiscally the State of Wyoming should stay within its budget.

Q11 Please send me additional information about the following topics:

Respondent skipped this question

Q12 Does your candidate committee accept Political Action Committee (PAC) contributions?

Yes.
