**Q1** What is your name and Candidate Committee name?

First and Last Name: **Mike Yin**  
Candidate Committee: **Committee to Elect Mike Yin**  
House/Senate District: **House District 16**  
Preferred Email: **mikeyin@electmikeyin.com**

**Q2** What is the role of state government in healthcare issues in Wyoming? Describe your top three priorities for improving the healthcare delivery system in the state?

1. **Expanding Medicaid**

**Q3** Wyoming's tobacco tax rate of \$.60 per pack ranks 8th lowest in the nation. The national average is \$1.72 per pack. Given the state's declining revenue and Wyoming's low tobacco tax, is increasing the tobacco tax a subject you feel worthy of consideration in the coming biennium? If you do support the tax increase is it primarily based in an interest to generate state revenue or as a method to de-incentivize tobacco use, or both?

**Yes I support increasing the tobacco tax.**

Please Explain:

Primarily to de-incentivize tobacco use. It would be useful to generate state revenue, but that would not be a long term revenue replacement for declining tax revenue in other sectors.

**Q4** Physicians in Wyoming are required to attend continuing medical education (CME) to maintain their licensure in the State. Many physicians are now also taking part in maintenance of certification (MOC) programs to maintain board certification. MOC programs include more stringent continuing education requirements often at a higher cost, and generally involve high-stakes testing in order to maintain certifications. Wyoming physicians support continuing education requirements, but oppose mandates to maintain board certification. Do you support tying a physician's employment, reimbursement, or licensure to their participation in MOC activities?

**No, physician board certification should not be allowed to be tied to state licensure, employment, hospital privileging, and/or reimbursement.**

Please explain.:

It is a good idea in theory, but I would need more data before burdening doctors with more bureaucracy and testing that MOCs lead to better patient outcomes.

**Q5** With 32 percent of Wyoming’s population being covered by public payers (Medicare, Medicaid, CHIP, Federal programs, etc), and current projected budget shortfalls, how would you prioritize reimbursement to physicians? Please explain.

Expanding medicaid will help with this, but healthcare in general remains a priority for me, and that means making sure physicians get reimbursed so they can continue to provide quality healthcare to Wyoming.

**Q6** WMS supports physician-led healthcare teams with each licensed provider practicing at the top of their scope. Do you support licensed healthcare professionals expanding their scope of practice or increasing the specific tasks they can perform, such as psychologists prescribing or optometrists performing eye surgery, through rule making or legislation without proof of adequate expanded education, training and curriculum changes?

**No, healthcare providers should only expand scope of practice when done through increased education, curriculum changes in training programs and stringent testing to determine proficiency.**

**Q7** The demand for mental health services in Wyoming is on the rise with involuntary hospitalizations increasing at alarming rates. Suicide also remains a concern with Wyoming ranking as the fourth-highest state in the nation. Between the increase in demand for state mental health services and recent overages in the state budget for Title 25 costs, what do you believe can be done to positively impact these trends?

Policies that generate strong families and communities help insure individuals have the social support around them. Making sure our citizens are educated, healthy, and happy are the keys to better mental health overall.

**Q8** Would you support legislation to resolve the professional liability crisis in Wyoming? Specifically, would you support a cap on non-economic damages? Would you support other remedies such as adoption of the English rule, no-fault medical liability insurance or other such reforms?

- |  |                 |
|--|-----------------|
| I support capping non-economic damages   | <b>Agree</b>    |
| I do not support capping non-economic damages  | <b>Disagree</b> |
| I support investigating all avenues to bringing meaningful liability reform to the state including capping non-economic damages. | <b>Agree</b>    |
| I support investigating alternative means to achieving liability reform but do not support capping non-economic damages.         | <b>Disagree</b> |
| I do not support any efforts to bring liability reform to the state as I do not see there is a current need or crisis.           | <b>Disagree</b> |

**Q9** WMS advocates for physicians to practice evidence-based medicine grounded in the latest research and safety standards. WMS opposes any legislation that attempts to unnecessarily insert government within the relationship between physicians and their patients as it hinders the ability for doctors to administer the most recent, evidence based, practices in medicine. Do you oppose legislation that unnecessarily inserts government between a physician and a patient?

**Yes, I oppose state legislation that inserts government between a physician and a patient.**

**Q10** Do you support expanding Medicaid to provide state-based insurance to uninsured Wyomingites for 10% of the cost to the State of Wyoming?

**Yes**

---

**Q11** Please send me additional information about the following topics:

**Respondent skipped this question**

---

**Q12** Does your candidate committee accept Political Action Committee (PAC) contributions?

Yes. Apologies for the late questionnaire submission. This particular questionnaire took a bit more research on my part, and I want to make sure I make sure I inform my positions before making them.
