

About WMS

The Wyoming Medical Society was founded in 1903 to provide representation, advocacy and service to Wyoming physicians. We strive to be an efficient, member-driven, responsive organization, capable of anticipating and responding swiftly to the changing health care environment. WMS serves our membership, and their patients, and works to improve the health of Wyoming's citizens.

**The Wyoming Medical Society is, and always will be, a staunch advocate for physicians.
*This is our core. All of our other activities revolve around this core.***

WMS ADVOCACY AGENDA

The Wyoming Medical Society pursues representation, funding and legislation to support the following industry priorities, as identified by its physician-members.

Access to Care for Wyoming Patients: The shortage of doctors is of highest concern for WMS. We support a broad package of legislation, each of which plays an important part in the effort to maintain and enhance our rural healthcare system.

Medical Liability Reform: WMS is a strong advocate for measures that will make our system more fair, predictable and timely for all involved, and ensure that patients can get the care they need in their local communities. Reasonable legal reforms supported by WMS include:

- Unlimited compensation for economic damages
- Limits on non-economic damage compensation
- Strong medical review panel
- Expert witness qualifications
- State funding support for liability premiums
- Special health courts

Future Wyoming Physicians: WMS strongly supports funding to maintain and expand the WWAMI medical education and UW Family Practice Residency programs. Both of these programs provide excellent opportunities to “grow our own” physicians and market the state to future physicians looking for a place to build their homes and practices.

Physician Reimbursement: WMS believes that periodic funding increases for physician Medicaid and Medicare reimbursement are imperative to ensure

MISSION STATEMENT

Advocating for Wyoming doctors and their patients.

STRATEGIC GOALS

Goal #1 – Voice of Medicine: Utilize the powerful, effective & unified voice of WMS to improve the physician practice environment and quality of healthcare for Wyoming patients through advocacy.

Goal #2 – Member Experience: Grow membership and increase provider participation and involvement to ensure the future health of the organization.

Goal #3 – Medical Community and Public Awareness: Enhance the public image of WMS members and strengthen the medical community statewide.

WYOMING MEDICAL SOCIETY

Advocating for doctors and their patients since 1903

About WMS

that all Wyoming's citizens will continue to have access to care. Reasonable reimbursement increases will help physicians cover the costs of providing care to Medicaid and Medicare patients and lessen the impacts of cost-shifting to the private sector.

Scope of Practice: WMS supports team-based care, and transparency of provider credentials within a system that recognizes physicians as leaders of the healthcare team. We oppose expanding the scope of practice for allied health professionals through legislation rather than additional education and training because it jeopardizes patient safety.

Patient Safety: WMS believes physicians are critical players in the development of patient safety practices and standard setting for clinical safety. WMS founded the statewide annual Patient Safety Summit in 2012 and is dedicated to continuing the journey of integrating all aspects of healthcare and healthcare providers to create the safest environment possible for Wyoming patients.

State Regulatory Affairs: In addition to the work that WMS does on behalf of members at the Capitol in Cheyenne, we are active in the regulatory side of government, providing oversight to promulgation of rules and regulations within agencies such as the Wyoming Department of Health, Wyoming Boards of Medicine and Pharmacy, to name just a few.

State ACA Implementation Oversight: WMS is actively engaged in ensuring that aspects of the ACA that Wyoming state officials choose to implement are done so with attention focused on physician perspectives, needs and concerns.

Public Health: WMS continues proactive efforts to address the prescription drug abuse epidemic, encourage seat belt use and actively pursue tobacco cessation, including advocating to increase tobacco taxes.

Medicaid Reform: WMS remains actively engaged in discussions within state government to reform Wyoming's Medicaid program. WMS believes physicians are some of the most valuable resources as the state considers various methods of coordinated care or waivers.
