

Spencer Weston, MD
Personal Statement

As a devoted father, a WWAMI graduate, and a proud resident of Wyoming, I am deeply honored to offer myself for the role of President within the Wyoming Medical Society. My unwavering dedication to serving our communities and fostering positive change in healthcare aligns seamlessly with the values of our esteemed medical society. Throughout my career as a Board Certified Family Physician, I have remained steadfast in my commitment to providing the highest standard of care to my patients. I have witnessed firsthand the challenges that physicians face in delivering quality healthcare, and I am passionate about overcoming these obstacles to ensure that every patient receives the attention and treatment they deserve.

The events of 2020 brought about significant shifts in the healthcare landscape, prompting me to transition from private practice to the employed sector. While this decision was driven by necessity, it has equipped me with invaluable insights and experiences that I believe will greatly benefit the Wyoming Medical Society as we navigate the evolving healthcare landscape together and work to improve healthcare delivery. I am dedicated to being a vocal advocate for our members, amplifying their voices and championing their causes. I am committed to fostering a supportive environment where physicians feel empowered to deliver exceptional care without unnecessary burdens or constraints.

Ultimately, my goal is to ensure that every physician in Wyoming can focus on what matters most: providing the best possible care to their patients. Together, let us work towards a future where healthcare is sustainable, physicians are supported, and families can rest assured knowing that their loved ones are in the most capable hands.

Let's shape the future of Wyoming Medicine, together!
